

BRAND BOOK

FEB 2025

be
mindful

Character

These words describe best how be.mindful feels — in our visual communication, but also in our texts and communication with clients.

Logo

The logo comes in two variations. This is the basic version, which is used mainly on pictures.

be
mindful

be
mindful **t** *be*

Logo usage

Make sure that the logo always has enough space around.

The second logo variation includes a green circle. This version is used mainly on cover pages, or monocolour background.

If needed the color of the circle can vary, as long as the color is one of the defined corporate colors. Make sure, that the color of the circle and the color of the background have enough contrast.

Logo usage

On pictures the logo is used only without the circle. Make sure the background is calm. On darker colors the logo is used inverted.

Color Codes

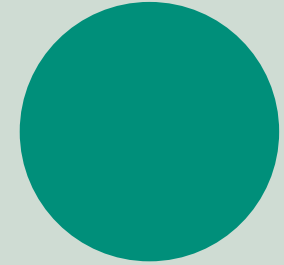

Base colors are the shades of green. Make sure, that the main visual character of any design is calming. If you want to add a little power or playfulness, you can choose the stronger shades. Never combine too many colors together.

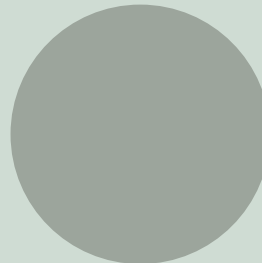

CMYK **53/4/43/0**
RGB **123/192/164**
#7BC0A4

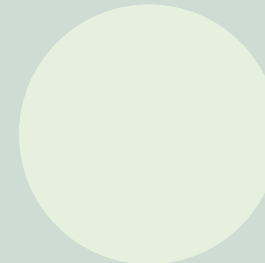

CMYK **25/9/22/0**

#956390

CMYK **12/44/0/0**
RGB **234/156/228**
#EA9CE4

Typography

The main font is **Anthrazit by Franziska Weirgruber**. Please note, that there is **Text-Cut** for longer texts. Otherwise use the **Display-Cut**.

In combination with illustrations, for dividing pages or to create a „comment“ layer in the layout **Preston Signature** is the right choice.

Happy and rooted

Anthrazit Display Semibold

Take a breath

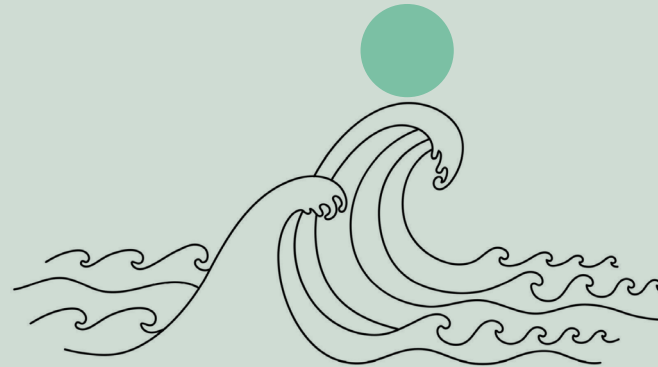

Preston Signature

Illustrations

Illustrations are playing with a color dot and a line. All available illustrations are collected in a folder and can be used according to their context.

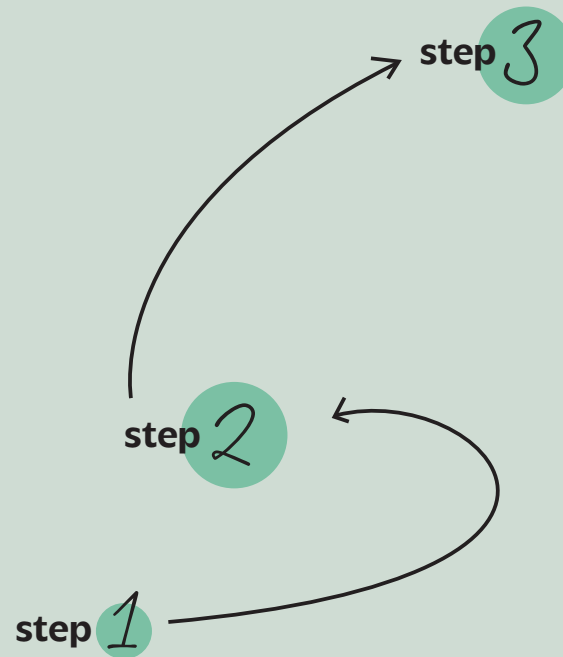

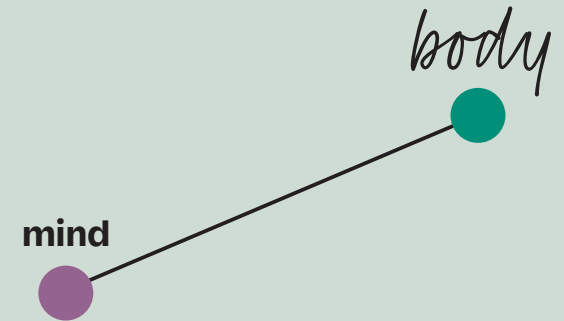

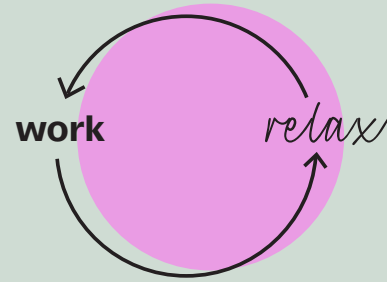

Stormy times?

stay
on top

Graphics

Next to the illustrations, graphics can be created. They should follow the same principles as the illustrations and contain a colorful dot and a line. The style of the line is oriented at the character of the Preston Signature font. Make sure, that the stroke of the line fits the stroke of the handwriting.

Photography

The photography is warm and friendly and in calm colors. Choose contemporary, atmospheric pictures, that tell a story of people and their emotions and state of being.

Pictures, that explain a technique, process, or scientific relation should follow the same parameters.
